Sub: Information for 3rd Quarter Price Data

Dear DSOs,

I am pleased to inform you that we have circulated the 2nd Quarter CPI Bulletin for the period ending 30th June 2010. The Bulletin has been uploaded in our website for information to the general public. In this regard, I would like to personally thank each one of you for helping us to bring out this publication in time.

As you may be aware, the National Accounts & Price Division is currently in the process of compiling data for the next quarter. Some of you have already submitted the monthly price data, which is commendable. However, I would like to caution here that due care and diligence should be exercised at all times while collecting information from the retail outlets. The present market conditions have become very fluid and prices tend to fluctuate every now and then. As such, the information collected should be full and complete, and in strict conformity with the Forms and number of quotations/specifications stated in the pricing list.

Further, I would like to urge each one of you to mention very clearly *reasons and justifications* for any changes in the prices in the remark columns provided in the Forms. This would help us greatly in tracking price movements in different towns very closely and for analysis purposes as well. Once again, you are reminded to collect price information on a regular basis, and submit the same without fail.

Should you have any problem, please do not hesitate to contact me or National Accounts & Price Division for assistance.

With regards,
Yours Sincerely,

(Kuenga Tshering)
DIRECTOR
